Modeled Performance Data

- **ERI:** with PV 8

TESTIMONIAL

By conserving as much energy as possible, this home will be able to offset 100% of its usage with a roof-sized solar electric system. When a net-zero-energy home can be built at a cost on par with traditional construction, everyone wins. TC Legend Homes is helping to usher in a new era of green construction in which homeowners don't have to choose between cutting-edge efficiency and staying on budget.

- Ted Clifton Jr., builder, TC Legend Homes
