- **Climate:** 2021 IECC Mixed Humid
- **Category:** Custom

Modeled Performance Data

- **ERI:** with PV -13

TESTIMONIAL

Despite extremely energy-efficient design, there was no compromise on aesthetics and only a reasonable cost premium … constant temperature year-round, no wide temperature swings, just continuous, constant comfort … an exceptionally quiet interior.
- Homeowner

KEY FEATURES

- All-electric home
- Compact (core) plumbing design
- Energy / Heat recovery ventilator
- Heat pump water heater
- High-performance wall with continuous insulation
- Photovoltaics
- Battery storage
