Modeled Performance Data

- **ERI:** with PV 24

TESTIMONIAL

The basement is where I can really feel [the comfort]. If you go downstairs it doesn't feel like a basement. Not damp and dingy like our old house.
- Homeowner

KEY FEATURES

- Energy / Heat recovery ventilator
- High-performance wall with continuous insulation
- Photovoltaics
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25
