TESTIMONIAL

This house is my first DOE Zero Energy Ready certified home and I'm working on my second DOE ZER home. I've made a 100% commitment to build to DOE ZERH. This will be my niche. I researched other home labeling programs, but the DOE program gave the most bang for the buck. It fills the bill of the other programs, but I like DOE's marketing support and it doesn't cost me nearly as much as other programs.
