Woodside Group

Boulder at Sky Ranch | West Jordan, UT

PROJECT DATA

- **Layout:** 3 bed, 2.5 bath, 2 fl, 3192 ft^2
- **Climate:** 2021 IECC Cold Dry
- **Category:** Production

Modeled Performance Data

- **ERI:** with PV 29

TESTIMONIAL

The three main off-the-shelf technologies we [used] were spray foam under the roof deck to create a conditioned attic, [an aerosolized acrylic sealant] to reduce ACH50 to < 2, and a tankless gas water heater with a 0.96 EF. These technologies are readily available, could easily be implemented in a production schedule, required minimal training, and are easily repeatable.
- Woodside Homes

KEY FEATURES

- Energy / Heat recovery ventilator
- Photovoltaics
- Battery storage
- Raised-heel trusses
- Unvented insulated attic
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25
- Central Manifold Plumbing Design
- Hot Water Recirculation Pump
