- **Climate:** 2021 IECC Mixed Marine
- **Category:** Custom

**Modeled Performance Data**

- **ERI:** with PV -13

## TESTIMONIAL

Shortly after moving in [in summer], a painter opened up all the windows while painting some trim. The home heated up to 83° by the time the painter left. We closed the windows and within 45 minutes the thermal-mass floors had sucked the heat right out of the room, so it was just 71.° This house is amazing!
- Homeowner

## KEY FEATURES
