Urban Eco Construction, LLC DBA Heirloom Design Build

Euclid Avenue | Atlanta, GA

PROJECT DATA

- **Layout:** 5 bed, 6.0 bath, 2 fl, 4840 ft^2
- **Climate:** 2021 IECC Mixed Humid
- **Category:** Custom

Modeled Performance Data

- **ERI:** with PV 50

KEY FEATURES

- All-electric home
- Energy / Heat recovery ventilator
- Unvented insulated attic
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25

TESTIMONIAL

Since moving into the Zero Energy Ready Home, we have found a vast improvement in indoor air quality. One of the occupants suffers from asthma. Since moving into the home, the asthma symptoms have been dramatically reduced, enough that daily medication has been eliminated. We attribute this to the tightness of the envelope … achieved through advanced framing techniques, various air-sealing measures, spraying the envelope with open- and closed-cell insulation. Incoming air gets processed through the ERV, a MERV 16 filter, UV sterilization, and dehumidification.
