- **Climate:** 2021 IECC Hot Humid
- **Category:** Custom

Modeled Performance Data

- **ERI:** with PV 49

TESTIMONIAL

The couple reports that while they expected the energy efficiency, they are happily surprised by the comfort of their new home. The super-insulated home holds temperatures easily and doesn't require much heating and cooling. The ventilating dehumidifiers provide fresh air and dehumidification for a healthy interior environment and increased comfort.
- Rebecca Bryant, WATERSHED

KEY FEATURES

- Energy / Heat recovery ventilator
- High-performance wall with continuous insulation
- Unvented insulated attic
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25
