- Energy / Heat recovery ventilator
- High-efficiency variable-speed heat pump
- High-performance wall with continuous insulation
- Photovoltaics
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25

TESTIMONIAL

I saw one of our homebuyers today. He is super happy. They can count on their bills being lower. A lot of people my age are willing to make an upfront investment to have lower bills over the long haul. People will pay $8,000 for stone countertops and there's no payback. People see the payback on this and they are willing to pay it.
