- **Climate:** 2021 IECC Hot Humid
- **Category:** Affordable

Modeled Performance Data

- **ERI:** with PV 23

TESTIMONIAL

We love our electric bills – or maybe we should say, the lack of bill. I like to check the computer to see the electricity produced in the morning or at night during a full moon. It is great to see our meter run backward and know we are saving money. We have a home that not many people get to have. Most people don't understand how much this home helps our family save money, live healthier, and be protected.
- Manatee Co. Habitat Homeowner
