TESTIMONIAL

The home is so quiet that you can't hear the traffic. ... Our energy bills are lower than in our apartment, and we have no bugs at all in the home. The past few days have been very warm and we haven't had to turn the air conditioning on yet. The house is easy to maintain and very comfortable.
- Homeowner

KEY FEATURES

- Compact (core) plumbing design
- Energy / Heat recovery ventilator
- High-performance wall with continuous insulation
- Triple-pane windows
