e2 Homes, LLC

Lake Knowles | Winter Park, FL

PROJECT DATA

- **Layout:** 5 bed, 4.0 bath, 1 fl, 3912 ft^2
- **Climate:** 2021 IECC Hot Humid
- **Category:** Custom

Modeled Performance Data

- **ERI:** with PV 5

TESTIMONIAL

In a world with ever-increasing energy costs, global warming, and the need to wean ourselves from fossil fuels, my wife and I were so happy to have found a builder who was able to guide us in building our energy-efficient home. From the beginning, Rob Smith suggested several smart energy-efficient options to incorporate in our home, that would allow us to see a return on the investment, including a geothermal heating and cooling system and a 10kw photovoltaic solar array on the roof.
- Homeowner

KEY FEATURES

- Ground source heat pump
- Heat pump water heater
- Photovoltaics
- Unvented insulated attic
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25
