Modeled Performance Data

- **ERI:** with PV 48

TESTIMONIAL

We build each home to the same standards, whether it costs $300,000 or $1,200,000. Our buyers seek us out … usually because of the reputation we have for building high-performance homes. The biggest reward for me is the personal satisfaction of knowing I am in the top 1% of all builders in the country.
- Tim Lowndes, builder, Charles Thomas Homes
