- **Climate:** 2021 IECC Cold Dry
- **Category:** Custom

Modeled Performance Data

- **ERI:** with PV -13

TESTIMONIAL

The passive solar features that were built into my house ... help warm the place in winter and cool the place in summer. The photovoltaic panels provide for all my daytime energy needs. The house is so well-built that heating and cooling demands are minimal. I am confident that the house they built for me will meet all of my future needs.

- Homeowner
