Mutual Housing at Spring Lake | Sacramento, CA

PROJECT DATA

- **Layout:** bed, bath, fl, 64604 ft^2
- **Climate:** 2021 IECC Hot Dry
- **Category:** Multifamily

TESTIMONIAL

Before moving into Mutual Housing at Spring Lake, my family and I lived in a two-bedroom apartment …that had troubles… with heat, the plumbing, and battling with cockroaches. It was hard dealing with our children's medical issues … and coming to an apartment that we dreaded living in. But things took a 180 when we moved into Mutual Housing at Spring Lake. We now live in a new four-bedroom apartment and we love it! The day we moved in, my 7-year-old son ran inside yelling 'I love my house, I love my house!' What was most important to me was that I had a decent home in order to handle the medical attention that my children need. But we got more than decent; we got perfection. Even though we have some struggles, at least now we are happy and proud to be living at Mutual Housing at Spring Lake.
- Homeowner
