- **Climate:** 2021 IECC Mixed Humid
- **Category:** Production

Modeled Performance Data

- **ERI:** with PV 46

TESTIMONIAL

The information shared about the type of home that Insight builds has turned out to be quite accurate. It is incredible how clean (dust-free) the home is staying with the filtration system. Our electric bills are running about $110 per month for 3,200 square feet of living space! That is impressive.
- Homeowners
