- **Climate:** 2021 IECC Cold Dry
- **Category:** Multifamily

Modeled Performance Data

- **ERI:** with PV 30

TESTIMONIAL

RidgeGate was designed with large monolithic roof planes. ... This, along with a site plan providing strong solar access, allowed Thrive to maximize the solar photovoltaic systems on each residence. This community offers the ability for buyers to purchase a home that can be taken to zero energy now or in the future.
- Bill Rectanus, ?vice-president of homebuilding operations, Thrive Home Builders

KEY FEATURES

- Photovoltaics
- Raised-heel trusses
- Double Walls
