Modeled Performance Data

- **ERI:** with PV -8

TESTIMONIAL

We look forward to a very low electric bill in our future. Our next car will be an electric hybrid that we can charge with our house. On the first day our solar was turned on, we made more energy than we used. What could be better than that?!
- Homeowner

KEY FEATURES

- All-electric home
- Heat pump water heater
- Photovoltaics
- Unvented insulated attic
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25
