Villages at Country View | Monroe, NJ

PROJECT DATA

- **Layout:** 2 bed, 3.0 bath, 2 fl, 2220 ft^2
- **Climate:** 2021 IECC Mixed Humid
- **Category:** Attached

Modeled Performance Data

- **ERI:** with PV 45

TESTIMONIAL

We think the house is energy efficient because we don't see high bills for utilities. Our home is not very big, but with 2,200 square feet and an open floor plan, you could assume things can go high. We are in the $100 range for gas and electricity. I think the orientation of the home helps as well, because we have a lot of natural light.
