

Beazer Homes Brownstone <u>55 | New Whiteland, IN</u>

PROJECT DATA

- Layout: 5 bed, 3.0 bath, 2 fl, 2829 ft^2
- Climate: 2021 IECC Mixed Humid
- Category: Production

Modeled Performance Data

• ERI: with PV 41

TESTIMONIAL

In our previous home, when it would get really humid outside, we'd hit 60% to 80% inside. This summer it's been 90 degrees with 70% humidity outside and we've barely crested 50% humidity in our new home, even on the worst days. So it's been significantly more comfortable.

- Homeowner

KEY FEATURES

- All-electric home
- Compact (core) plumbing design
- Energy / Heat recovery ventilator
- Heat pump water heater
- High-performance wall with continuous insulation
- Triple-pane windows
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25
