• Layout: 4 bed, 4.5 bath, 2 fl, 4119 ft²

• Climate: 2021 IECC Cold Dry

• Category: Production

Modeled Performance Data

• ERI: with PV 4

TESTIMONIAL

We're generating more energy than we're using. In fact, our last two bills were about \$35 dollars and I love going out and watching all the credits we have. I have to say, being the first to move in and be surrounded by construction, having these thick walls, we hear very little. It's very quiet.

- Homeowner

KEY FEATURES

- Cold-climate heat pump
- Photovoltaics
- ACH 50 < 2.5 or CFM50/SF of enclosure ? 0.25
- Double Walls
